REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a process as claimed in which the hydrocarbon stream is mixed with an alkaline stream with this resulting mixed stream being fed to a prewash section containing alkali to convert hydrogen sulfide to a sulfide salt. The claims in related application 10/027153 also do not contain this limitation. Therefore, the obviousness-type double patenting rejection is also withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
